THE MOUNTING OF ALL-STEEL CARD CLOTHING.  
[1961] 9p. (1 table figs. omitted).  
Order from SLA \$11.00

61-14551

Trans. of Textil-Praxis (West Germany) 1957, v. 12,  
no. 1, p. 17-25.

DESCRIPTORS: \*Steel. \*Clothing. Processing.

The mounting of all-steel clothing requires slightly more attention, experience and time than that of hook-clothing. This fact, however, is no obstacle for a card expert and does not prevent him from carrying it out in his own plant if the required devices are available. A faultless all-steel clothing represents precision work and deserves, therefore, careful treatment in the plant. This small effort, causing no extra costs, is compensated by the considerable economic advantages gained thereby. (Author)
